

**ABOVE GROUND
POOL SALES** PTY LTD

SKIMMER BOX LOCATION

When unrolling your pool wall, the return inlet will be the first cutout, followed by the skimmer box cutout.

- Start unrolling the wall approximately 190cm from where you would like the location of the skimmer box. Keeping in mind, the skimmer box should be installed on one of the sides of the pool and not on the ends of the pool. Installing the skimmer box at the end of the pool may cause restricted access to the skimmer basket due to the wide top coping.

If you require any further information, please don't hesitate to contact one of our friendly staff on 1800 252 774.
